As a Frontend Developer and Computer Engineer, I'm seeking opportunities in challenging mobile or web projects. My skills extend beyond coding to strategic project planning. I aim to contribute at multiple levels and aspire to create impactful solutions for organizations, using technology to drive innovation.

Work Experience

Website Support Specialist

HQ Rental Software (Sep, 2022-Present)

- Specialized in customizing WordPress website integrations utilizing CSS, HTML, and Javascript.
- Resolved client issues by leveraging my knowledge of CSS, HTML, Javascript, and DNS management.

Frontend Developer

Ubicutus (Jul, 2021-Sep, 2022)

- Led mobile frontend development, refactoring, and performance enhancement using React Native.
- Managed web frontend development, refactoring, and performance improvement using React.

Web Frontend Developer

Zaperoco Media (Mar, 2021-Jul, 2021)

- Developed and refactored landing pages, web stores using Blade, WordPress, HTML, CSS, and Javascript.

Organizational Development Coordinator

AIESEC in Venezuela (Feb, 2020-Jul, 2021)

- Developed, evaluated, and standardized strategies, processes, organizational culture and frameworks.

- Customer service

Projects

Ecommerce Web App

Ubicutus (Feb, 2021-Aug, 2022)

Led the frontend development of an Ecommerce Web App template, adhering to design guidelines. Utilized React, Typescript, and Emotion for development.

Grocery Store Mobile App

Ubicutus (Aug, 2021-Aug, 2022)

Refactored app views in line with design improvements and good coding practices. Added features as per client requests using React Native.

React Native Boilerplate (Internship project)

Ubicutus (Aug, 2021-Jan, 2022)

Developed a boilerplate generator to optimize React Native projects development, following best practices and standards. Utilized React Native, Node.js, and Typescript for development.

Education & Courses

Computer Engineering

Universidad Simón Bolívar (Jul, 2022)

Acquired knowledge in data structures, algorithm analysis, database management, and project management.

Frontend with React.js

Platzi (Feb, 2024)

Gained experience building, testing, and maintaining high-performance client and server-side React applications using the latest tools and techniques.

Javascript in depth

Platzi (Dec, 2023)

Mastered Javascript fundamentals, built robust web applications, and gained in-depth understanding of Javascript's role in web development.

Meta Front-End Developer Certificate

Coursera (Nov, 2023)

Acquired an intermediate level of proficiency in HTML, CSS, Javascript and React. Gained experience in user interface and experience principles, and unit testing using Jest.

HTML and CSS in depth

Platzi (Mar, 2023)

Acquired an intermediate level of proficiency in HTML and CSS, learning responsive design principles and animations. Gained experience with Tailwind CSS and Sass.
